Professional Summary

Computer Science & Artificial Intelligence undergraduate with hands-on experience in full-stack web development using the MERN stack. Skilled in building scalable web applications, implementing authentication systems, and creating responsive user interfaces. Passionate about software engineering, problem-solving, and leveraging technology to develop impactful solutions.

Education

Rishihood University 2024 – 2028
B.Tech in Computer Science & Artificial Intelligence

Delhi World Public School 2024
Senior Secondary (XII), CBSE

DAV Public School, Nerul 2022
Secondary (X), CBSE

Work Experience

Freelance AI Trainer / Evaluator *Handshake AI*
Aug 2026 – Sep 2026

- Evaluated and reviewed AI-generated responses against defined quality, accuracy, and relevance criteria.
- Applied evaluation guidelines and rubrics to assess model outputs and provide structured feedback.
- Contributed to AI training and evaluation workflows across assigned projects, earning approximately \$4,000 in 1.5 months.

Projects

Student GitHub Reviewer *GitHub | Live*
Technologies: React, Node.js, Express.js, MongoDB, GitHub API

- Built a web application that analyzes GitHub repositories and generates structured feedback on project quality and organization.
- Developed an intuitive dashboard for reviewing repositories with improved readability and navigation.
- Streamlined repository evaluation workflows, improving developer productivity and reducing manual review effort.

Personal Portfolio Website *GitHub | Live*
Technologies: React, Vite, Tailwind CSS

- Designed and developed a portfolio website showcasing projects, technical skills, and achievements.
- Built a modern responsive interface with smooth navigation and optimized performance.
- Deployed and maintained the application using version control and modern web development practices.

Skills

- Programming:** Python, JavaScript, SQL
- Frontend:** React, HTML, CSS, Tailwind CSS, Vite
- Backend:** Node.js, Express.js, REST APIs
- Databases:** MongoDB, MySQL, Prisma ORM
- AI & Data:** Machine Learning, Generative AI, NumPy, Pandas, Streamlit
- Tools:** Git, GitHub, JWT Authentication
- Core CS:** Data Structures, Object-Oriented Programming

Leadership & Activities

- Football Captain
- District-Level Swimmer
- President, Photography Club
- Organized 4 major and 2 minor university events
