PROFESSIONAL SUMMARY

Full-stack developer skilled in building responsive web applications using React, Node.js, Express, Prisma, with experience in AWS deployment, AI/ML integration, and a strong foundation in Python, SQL, and REST APIs. Proven problem-solving ability with a 1096 Codeforces rating and 100+ LeetCode problems solved.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 8.4/10.0
Intermediate (Class XII)	2023 - 2024
Delhi Public School Bhopal	Grade: 90.6%
Matriculation (Class X)	2021 - 2022
Delhi Public School Bhopal	Grade: 91.2%

EXPERIENCE

Vice President of Blockchain Department	November 2025 - Present
DevClub	<i>Sonipat</i>

VP of Blockchain at Developer Club, leading a team to develop blockchain solutions, organize workshops, and mentor members. Spearheaded DApp development, focusing on security, scalability, and innovation.

INTERNSHIPS

Full Stack Intern	May 2025 - July 2025
NOVA AUTOMATA INNOVATIONS PVT. LTD	<i>Remote</i>
- Developed React.js UI features for internal DCM and DRDO applications - Integrated frontend components with Django backend APIs - Contributed to a DRDO project actively used by their internal teams	

PROJECTS

Sentinel – AI-Based Local Dataset Cleaning & Automated Preprocessing Platform ([Github](#)) ([Demo](#)) January 2026

Tech Stack: Next.js 14, TypeScript, Python, FastAPI, Ollama (Local LLM), Tauri, WebSockets, Tailwind CSS, Framer Motion.

Description: Sentinel is a privacy-first, local AI file organization platform that automates digital decluttering by intelligently scanning, categorizing, and sorting files directly on the user's device, ensuring sensitive data never leaves the local environment.

Features: Real-time task monitoring via WebSockets, context-aware file sorting using local LLMs, cross-platform native desktop deployment (macOS/Windows), and a high-performance glassmorphic UI with seamless drag-and-drop interactions

Udyam Saathi ([Github](#)) ([Demo](#)) March 2025

- Tech Stack:** React, Node.js, Express, MongoDB, JavaScript, CSS
- Description:** UdyamSaathi is a civic-tech platform that helps MSMEs discover relevant government schemes and streamline documentation. It won 3rd prize at IIT Roorkee and is being developed into a scalable full-stack product.
- Key Features:** Eligibility-based scheme filtering (location/sector), user profiles, document uploads, and application tracking. Planned enhancements include AI-driven recommendations and automated paperwork assistance.

SKILLS

Computer Languages: Machine Learning, Python, HTML, CSS, JavaScript

Data Tools: TensorFlow, NumPy

Software Packages: Pandas, Figma, Tailwind, Prisma ORM, React, Node.js, Express JS, MySQL

Others: AWS

EXTRA-CURRICULAR ACTIVITIES

- Won **2 Tech Competitions** at **IIT Roorkee** (*ProdG*, *Snap Syntax*).
- Completed projects for **3 freelance clients**, delivering on time with quality results.
- Supported organization of **Hult Prize** and **Go For Gold** events.
